

假设你买了一本英文词典，发现有一些质量问题，书店的服务态度又不好，就给报社编辑写信。信中包括以下内容：

1. 事情的起因：自己在匆忙的情况下随便拿起一本书店的英文词典，没有检查就离开了书店。
2. 字典的问题：有些词条的解释模糊；有两面是 12 页，没有 13 页。
3. 与书店交涉的经过：我回到书店要求更换字典，但是书店的工作人员告诉我店里已经没有相同的词典。我建议他与出版社联系，但是他直接拒绝我，要求我自己去联系出版社解决问题。
4. 呼吁服务行业提高服务意识：良好的服务理念会赢得顾客的信心并争取更多的顾客，希望服务业提高服务质量。

实践活动深受学生们的欢迎，对此，家长们有不同的看法。具体情况见下表。

back to the bookstore, asking for an exchange, but the shop assistant told me that there was no copy left in the store. Therefore, I requested him to contact the Publishing House to arrange a replacement for me, which was refused by the shop assistant, who asked me to do it myself. Something has to be changed in service trades since a strong service concept gives companies the opportunity to gain the customers' confidence and win more customers, so it is high time for those working in the lines changed their attitude toward customers and raise their awareness of service.

Sincerely yours,

Jenny

Social Practice has been more and more popular among students. Some parents believe that Social Practice offers the students a chance to contact the society and get some idea of the society, so they support it. Besides, the students are supposed to apply what they have learned in class to the practical work, which will be helpful to their future career. However, some parents who hold the opposite opinion argue that students may get more interest in social work and spend long time on it, thus neglecting their studies. Worse still, attention distraction makes them unable to focus on the study. Still some others think students should put their studies in the first place and hold the Social Practice just as a supplement of their study.
